Tammy Taylor, Village Trustee
Village of Dupo

Dupo, IL 62239

Tammy Taylor,

I am submitting our bid for a new sign outside city hall.
Note that there are a few differences in my bid versus the specs you posted on your Request to Bid, per the following:

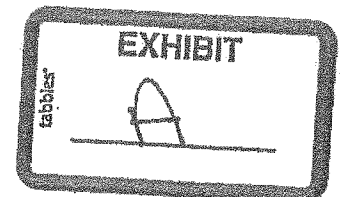

- 1) My bid is for a Daktronics EMC board. We prefer the Daktronics brand because for the last 53 years Daktronics has been innovating and engineering new solutions for our customers. Today they are the World Leader in designing and manufacturing programmable display systems. Why does that matter? The answer is longevity. Businesses and cities are putting good money towards their image and communicating to their citizens, so those products need to last. Daktronics also has their own software. Next/Stax has a third-party system software that could affect the village if that software company goes out of business.
- 2) My faux brick columns are a solid synthetic column with a hole in the middle to slide over the existing poles. The Texture Plus Tri-State Brick Interlock is only 1/2" - 5/8" thick.
- 3) My overall size is 104"w x 76" x 24" to accommodate the Daktronics EMC board.

Please let me know if you have any questions.

Thank you.

Sincerely,

Don Greer
